

## SECTION 6 - PROGRAM OF WORK

The State's Program of Work is developed by the State Officers each year. The officers select a theme and areas of emphasis. The Program of Work includes suggested activities for chapters to carry out in support of the State's theme and their own Program of Work.

This State Program of Work is included in the Fall Packet each year and chapters are encouraged to use the ideas and themes provided for building their own Programs of Work.

A sample Program of Work is included.

Keep your copies behind this tab.

# SAMPLE
